Trade Enquiries welcome

Now supplying posts and strainers certified by NSAI in accordance with IS436 as specified by the Department under Farm and Forestry schemes.

- **15 year desired service life in accordance with IS436**
- **Kiln dried with a maximum pre-treatment moisture content of 28%**
- **Pressure treated to Hazard/Use Class 4 – similar to motorway fencing**
- **NSAI approved – qualify for all government grant schemes e.g. AEOS, Sheep fencing, Forestry schemes etc.**

More farmers are opting to buy these posts outside of grant schemes because they are keenly priced, excellent quality and long life expectancy.
